

Biodiversity Collage

Explore the web of life and why it matters.

Using cards based on international biodiversity science, participants journey through the living world, from the soil beneath our feet to the oceans that cover most of the planet. Together, they uncover what drives biodiversity loss, and leave with a clearer picture of how to protect it.

 **100,000**
participants worldwide

 **70**
countries reached

How a session unfolds

- 1 Ecosystem game**
Participants recreate a balanced ecosystem and discover what happens when it's disturbed - a playful opener that makes the stakes tangible.
- 2 Comprehension**
In teams, participants map the causes and effects of biodiversity loss, building a systemic picture of the living world.
- 3 Creativity**
Participants decorate their collage and give it a title, making the content their own and building a shared team identity.
- 4 Discussions & Actions**
The session closes with a collective brainstorm on how to protect ecosystems and restore our relationship with the natural world.

Who it's for

-  **Companies**
Team-building events, management seminars, new employees onboarding
-  **Universities & Schools**
Courses, orientation weeks, student clubs (junior version available, age 9+)
-  **Local Governments**
SME support programs, staff and official training, community events
-  **Non-profit organizations**
Team alignment sessions, volunteer onboarding, donor/partner engagement

Logistics & Format

-  **3 hours** ("Domino" version: 30–90 min)
-  **4-14 per facilitator**
